

KS&R's DIGITAL DISPATCH

Week Ending: March 20, 2020

Top Stories This Week

[Working Or Learning From Home: Telecoms Give Boost In Bandwidth To Keep Us Online](#)

As Americans hunker down at home while schools and offices shutter in an effort to slow the spread of the novel coronavirus, many of them will lack something besides human companionship: sufficient bandwidth for full-time telework or remote learning. ([usatoday.com](#))

[Get Ready For AI As A Service](#)

Artificial intelligence is not for the faint-hearted, as it requires investments, expertise, and lots of hand-holding. ([forbes.com](#))

Products & Services

[New SpaceX Launch: Starlink Now Has 360 Internet-Beaming Satellites, As US Service Nears](#)

SpaceX has successfully launched another 60 Starlink satellites, boosting its internet-beaming space network to 360 satellites. ([zdnet.com](#))

[Snapchat Launches Lens Web Builder For AR-Based Advertisement](#)

As a web-based AR Lens ad production tool, Lens Web Builder promises to eliminate the need for a standalone AR app. ([broadcastprome.com](#))

Emerging Technology

[This VPN Built On Blockchain Could Be The Next Step In Privacy Tech](#)

No matter how much we trust any particular virtual private network to help mask our internet browsing, we engage in that service knowing that all of our data is essentially funneled to a single company, whose servers most of us have never seen with our own eyes. ([cnet.com](#))

[Driverless Trucks Being Tested Right Now On Public Roads](#)

Few are aware that driverless 18-wheelers are already on the road. ([cbsnews.com](#))

Mergers, Acquisitions, & Partnerships

[These 3 Major Tech Companies Are Collaborating To Innovate IoT](#)

We're now one step closer to having fully connected homes. ([innotechtoday.com](#))

Industry Reports

[5G Ruled Safe By Panel Of International Experts](#)

Fierce opposition to the deployment of the 5G infrastructure has been popping up all around the world, from California to South Africa to Sweden. (rcrwireless.com)
