

KS&R's DIGITAL DISPATCH

- How premium content defines today's consumer.
- Rummaging through drawers to find your keys could become a thing of the past.
- Best Buy will have a platform that's used by healthcare organizations to monitor patients.
- Blues Wireless device enabled by AT&T to seamlessly connect IoT devices globally is now available.

Insights & Innovation: I Am What I Watch

Before streaming, we watched what was on TV — and often, that wasn't much. Back then, options were scarce, but in today's expansive digital landscape, our choices are seemingly endless.
